DR. MORSE'S
Indian Cordial,
A
Phenomenon in Medicine,
Health Restored & Life Lightened by
Morse's Invigorating Elixir, or Cordial.

...ntion, Medical science has been astonished at this and numerous other instances, by patients that should restore the lost or destroyed vital nervous and muscular systems, without fear of subsequent prostration, which all stimulants and narcotics has heretofore attended. Many have been so long in a state of nervous prostration from the effects of secret indulgence that they despair of ever being restored to perfect health and manhood. In such a case the celebrated Professor M. Morse, of this city, a regularly educated member of the medical profession of the Old world and majority distinguished for his skill in the treatment of diseases of a private nature and transitory. The powers of nature are concentrated and combined with other original extracts, are now producing results unheard of in this or any other country. An overplus stimulant is not used, but NATURE IS ASSISTED BY THE ELIXIR OR CORDIAL, when deemed necessary. The public others deceived by false promises and sublime truths announced by the doctor. But facts, undeniable facts, attested by witnesses of the highest class and character, are now given all doubts. Immediately from the testimony of testimony which is perfectly irresistible, the XIR remedies, in all cases, the depletion from a misuse or abuse of the various organs, make up the wonderful medicine called morse. A full page every debtor in the country. The feeble nervous system composed agency of matter and energy to the reproduction of human life. The feeble nervous system of debilitated is recommended as the only source of power that energy which is necessary to the proper of all the natural appetites, as well as the intellectual. Its beneficial effects are not either sex or to any age. The feeble girl, the the listless, enervated youth, the over tasked man, the victim of nervous depression, the suffering from general debility, or from the of a single organ will all find immediate and relief, from the use of this incomparable medicine. To those who have a predisposition to consumption, a complete and unfailing safeguard against is insidious. There are many perhaps, who are inclined with the symptoms indicate, that they selves beyond the reach of medicine. Let despair. The Elixir deals with diseases without reference to causes, and will not a disorder itself out.

House-keepers, look at this!
Admirable Invention!
PATENT SELF HEATING
SMOOTHING IRON!

MANY important improvements have been made since the commencement of the present century, relieving and facilitating the labor of them by machinery and other modern implements, but females have been no great sufferers, until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience and ease of labor and despatch, one heat will do for very, or several ordinary families. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Mantlers and Tailors Irons are constructed upon the same principle, and possess equal superiority.

CITY OF BANGOR.

On the written application of Henry A. Wood, O. H. Ingalls and others for a Main Drain, or common sewer, commencing near the junction of Hammond and Ohio streets, and extending down said Hammond street to the corner formed by said street with West Market Place, with said application on set forth

Ordered—That the Mayor and Aldermen repair to the place designated in said application to examine the same and determine the necessity of said Drain, on WEDNESDAY, the fourteenth day of June instant, at 7 o'clock P. M.

Ordered—That in case the Mayor and Aldermen, or a majority of them, who may be present at said meeting, shall judge it expedient that such Drain or sewer be made, they will, at the time and place aforesaid meeting, determine upon and allow such sum for damages (if any are claimed,) as any claimant may be entitled to, deducting the benefit he may receive, and said Mayor and Aldermen will also at the time and place aforesaid estimate and decide what persons or persons, if any, are benefited and liable to be assessed for a proportionate part of the charge of making, maintaining, and repairing such drain or sewer and the amount of such benefit.

Ordered—That notice to all persons, through or over whose land said drain or sewer is to be placed, be given by publishing an attested copy of said application and of this and the preceding orders thereon, one week in the Bangor Daily Whig and Courier, a newspaper printed in said city—the first publication to be seven days at least before the time of said meeting.

CITY OF BANGOR

ON the written application of John Sargent Jr., Franklin Whittier, et als., citizens of said residing in said Bangor, for a main drain or common sewer, to be made in said city, commencing on Essex street, near the head of Cumberland st, and extending down said Cumberland street to such point as the Mayor and Aldermen may deem necessary, a hearing upon the application is set forth.

Ordered—That the Mayor and Aldermen repair to the place designated in said application, to examine the same and determine the necessity of said drain, on THURSDAY, the fifteenth day of June instant, at 7 o'clock P. M.

Ordered—That in case the Mayor and Aldermen or a majority of them, shall judge it expedient that such drain or sewer be made, they will at the time and place of said meeting determine upon and allow such sum for damages (if any are claimed) as their opinion should be allowed) as any claimant may be entitled to, deducting the benefit he may receive—and said Mayor and Aldermen will also, at the time and place aforesaid, estimate and decide what persons or persons, if any are benefited and liable to be assessed for a proportionate part of the charge of making, maintaining and repairing such drain or sewer, and the amount of such benefit.

Ordered—That notice to all persons through or over whose land said drain or sewer is to be placed, be given by publishing an attested copy of said application, and of this and the preceding orders thereon, one week in the Bangor Daily Whig and Courier, a newspaper printed in said city—the first publication to be seven days at least before the time of said meeting.

Whig State Convention.

The Whigs of the several cities towns, and organized plantations in the State of Maine, are requested to send delegates to meet in Convention at PORTLAND on THURSDAY, the 29th of June next, at 10 o'clock A. M., for the purpose of nominating a Candidate for Governor, and the transaction of such other business as may be presented.

The basis of representation will be as follows, viz.—Every city, town, and organized plantation, will be entitled to one delegate; every city, town, and organized plantation, having 150 inhabitants, will respectively be entitled to two delegates; those having fifteen hundred inhabitants to three delegates; those having two thousand inhabitants to four delegates, those having twenty-five hundred inhabitants, to five delegates; and those having more than twenty-five hundred inhabitants an additional delegate for every additional one thousand inhabitants—the census of 1850 to be taken as the basis of representation.

By order of the Whig State Committee.

The Age and the Union.

The audacity of the Augusta Age, upon the Nebraska question, and its denunciation of the course taken by the President's central organ, has at length, drawn upon its head an edict of excommunication. In other words, the Washington Union formally reads, or intends to read, the Age out of the party—consigns it over to the "Abolitionists"—recommends it to the company of Greeley, Sumner, the Boston Commonwealth, and the Portland Enquirer—and remarks that "such prints can sin in the Democratic party alone to impair its strength and to dishonor its creed."

In reply, the Age of last week has a caustic article, showing quite conclusively that it is the Union, and not itself, which is not only departed from the Democratic creed on this question, but has incontestably cast off own words of six months ago. It also arraigns the Union for attempting to make the Nebraska bill a test of Democracy—for claiming that a majority of the Democratic members of Congress have a right to make laws for the party, in violation of the laws enacted by the representative delegates of the party in Convention assembled—for setting aside the Baltimore platform, and substituting the single Nebraska plank—and for denouncing as Abolitionists all who refuse to misrepresent the sentiment of their constituents, by voting for the bill.

The Age has decidedly the best of the argument; and talking as it does, the fearless position of opposing an administration measure which has been made a test of Democracy, will receive the approbation of honest and sincere men of its own party, and of all others. Nevertheless, it can maintain its position only by persuading a majority of its party friends to adopt its views, and stand up with it in opposition to the policy—now christened Democratic—of giving universal license to slavery in all the territories of the Republic. A decision of the right of Congress to restrict slavery—or, as it is deceptively termed, the establishment of the principle of self-government by the people—is now the test doctrine of Democracy as laid down by the administration, and we fear the Age will find it necessary either to carry a majority of the party against an administration of its own choosing, and one unanimously voted for by the party less than two years ago, or submit to leave the party ranks—or, remain from the high position it has taken. The latter alternative we are confident it will hardly take.—Is it, then, possible for it to procure from the "regular" Democracy of Maine—say at the State Convention of the 21st—an expression of censure upon the administration, either direct or implied, for its course upon the Nebraska question? We confess to great and serious doubts as to the possibility of the thing, for, with the known sentiments of the Morrill Democracy, it would be equivalent to a deliberate rebuke of President Pierce by two thirds of the old Democratic party in Maine. It would be reading the *President* out of the party, and not the Age. It will be acknowledged that this is something of a job to be undertaken—and, one great difficulty in doing it is that the Democracy of Maine would thereby cut itself entirely loose from the Democracy of the South, thus bringing about just what the Age so strongly deprecates, viz, a disruption and dissolution of the Democratic party. And we, to this complexion it must come at last, if there be honesty and fair play among Northern Democrats. Meantime, we may remark, that the Age appears already to have lost its national patronage; but that the Argus, by adopting the mum policy, and skillfully trimming its sails to the breezes from Washington, yet retains a modicum of pap.

EXPLANATORY. In our remarks of Saturday touching telegraphic despatches, we did no intention of reflecting upon the agents or operators of the telegraph company. They have treated us with uniform courtesy and kindness, and have discharged their duties both towards us and the public, with promptness and efficiency. The explanation of the matter of the Niagara's news appears to be that portion of the usual cypher despatch went through, and was translated and sent back, on account of the full despatch being stopped by the breaking of the wires eastward of this city. Meantime, however, the line was broken between here and Portland, and we were consequently isolated.

OUR IMPORTS STILL ON THE INCREASE.—The total imports at New York, since January 1st, amount to $17,181,080, against $14,610,243 for the same time last year. For the first five months of 1852, the imports amounted to only $7,719,735. Increase since '52, about 250 per cent.

The exports from New York since Jan. 1st, exclusive of specie, show an increase of $4,402,131, as compared with the same time last year. Increase in the export of specie, about $4,500,000. The imports and exports at New York, since July 1, 1853, have increased very nearly to the same amount each—the former $26,883,858, and the latter $26,118,744. The above facts we gather from an article in the Journal of Commerce.

Gathering of the Sons and Daughters of Newburyport.

The committee of arrangements of the city of Newburyport, have issued a formal invitation to the absent Sons and Daughters, and former residents of Newburyport, including old Newbury, to return and participate with the citizens in celebrating the approaching anniversary of the Declaration of Independence, and the assurance is given, of a cordial welcome.

This movement for the gathering together of the absent sons and daughters of former residents of that beautiful town, which all who have left it love so well, has occasioned great interest, and many will visit the homes of their childhood on the fourth of July, and enjoy the companionship of the olden time, and meet those long separated, and enter with a high relish on the festivities and incidents of the occasion.

In the city of Bangor there are many sons and daughters of Newburyport, and nearly all of them intend to join in the celebration of the great and glorious fourth of July. The representation from this city will, beyond a question, be numerous and respectable. In view of the numbers, we should suppose that it would well to have some preliminary organization in this city, in order to obtain the necessary materials for a report of the number of representatives from this city, and for uniting in the celebration in a body, in such a manner as to honor their birth place and the city of their adoption.

We have heard it stated from citizens of Newburyport, that the committee of that city, deeming it inadvisable to furnish intellectual as well as other entertainments at the celebration, had invited Senator Houston and other strangers and orators, to be present. We hope nothing of this kind has been done, but that the occasion will be one of special local interest. We can discuss great questions of State, of politics, of finance, of temperance, of morals and religion every day in the year, and at our own homes, but on the fourth of July we all wish to recall our early lives, to awaken the patriotism of childhood, to gather about the old homestead, with the home feeling, and to listen, as we are all willing to listen, reverently to the voices of those who kept watch and ward about the corner, and school houses, the churches and play-grounds of our early years. In this spirit each can meet with the highest anticipations of pleasure; but to meet and endure the fatigues of a public procession, and be talked to by strangers, and bore'd at the table by political speeches from stranger lips, are not such entertainments as can be agreeable or endurable.

We are so certain that Newburyport, feels herself abundantly able to furnish all the intellectual as well as other entertainments for a genuine home feeling, in a home celebration, that ever, against what has been reported, we are certain no foreign aid will be invoked.

EX. E.

IMPORTANT FROM WASHINGTON—*Canadian Reciprocity—Treaty Negotiation Concluded.*—A Washington correspondent of the New York Times, writing under date of June 5th, says:

The Fishery and Canadian Reciprocity Negotiations are finally concluded, and on terms said to be very satisfactory to Secretary Marcy. This treaty makes the navigation of the St. Lawrence free; it gives us unrestricted participation in the fisheries, and establishes reciprocal free trade will Canada, in all the natural products, including manufactures.

The British demand for an American register of Colonial built vessels and their participation in our coasting trade was refused.

The rejection will constitute a gratifying feature in the business, as likewise the recognition of our right to the free navigation of the St. Lawrence. We may say further, that as surances have been given to the Provincial governments by the British authorities, that a treaty should be concluded except with a provision requiring the assent of the Provincial Legislatures. It is well known that the eastern Provinces demand the repeal of our fishing bounties as an offset to the increased privileges allowed our fishermen on the Provincial coasts. The treaty, if completed, must also be ratified by the legislative action of Congress.

NEW MUSIC.—We are pleased to notice a few choice gems for the voice and piano forte, just issued from the press of William Hall & Son, New York:—"Summer Evenings," consisting of twelve beautiful melodies for the piano forte, by William Dressler, each 12 cts. "Maitre de Plaisir," or choice selection of Polkas, Marches, Waltzes, &c., arranged in brilliant styles for the piano forte, by Charles Grobe, each 25 cents. "The Mother's Smile," a ballad by Wm. Vincent Wallace, 38 cts. "Serenade, Soft Evening Air," by J. A. Fowler, 25 cents. The high reputation of all these composers is a sufficient guarantee for the excellence of their music.—We can only say that the pieces before us are brilliant and effective for the parlor, pleasing and instructive for practice, and such as will improve the taste and give satisfaction to both player and his auditors. Address William Hall & Son, 239 Broadway, New York, who will send by mail, post-paid, any of the above pieces, on receipt of the marked prices.

A CURIOUS FACT.—The beautiful Magnolia tree, which blooms and sheds its sweet perfume in the sunny South, is a most apt entire strangers to us Yankees. To tell them that it can be grown in our cold and unpromising climate, will cause them to exclaim—"Shaw!—Nonsense! But many a strange statement seemingly unnatural is true, nevertheless, and the Magnolia actually grows, and thrives, and puts forth its sweet smelling flowers in the sunshine of the good old town of Gloucester, in the old Bay State. Can any of our Boston exchanges tell us how it happens that the Magnolia grows there? Is it by accident or design?

"The South is not altogether in favor of the Nebraska iniquity, it seems. We are glad to see that Mr. Hunt's course is sustained by the Louisiana consituency. The New Orleans Crescent endorses it outside, out, and says:

"*We might indeed remark with safety, that our temperate at least, of Col. Hunt's sentiments* as near as the sentiments advanced by him in his speech on the Nebraska Bill. We are all in favor of emancipating Southern rights, but believe at the same time that they may be sustained without an covert, still less a flagrant, breach of plighted national faith."

Varieties.

Newspaper Changes.—Messrs. Rowell & Wing, of the Hallowell Gazette, have dissolved their copartnership, and the paper is hereafter to be published by Mr. Rowell. The Gazette is an excellent paper and will continue to flourish under Mr. R's very successful management.

Launches.—At Richmond, 4th, ship Martha Whitmore, 550 tons. At Hallowell, 7th, ship Abby Langdon, 1026 tons.

The Scarcity of Seamen in the merchant service is severely felt. The New York Express says the difficulty has been much increased by a recent agreement of ship owners to pay only $20 advance wages; whereas the government pays $36 advance wages and $30 bounty, or $66 in all. The regular wages on merchantmen is $20 per month, while the government gives but $12; but to get immediate possession of the aforesaid $66 determines the seaman's choice. Over 600 men, principally taken from the merchant service, have entered the Navy since the list of April.

Cholera at St. Louis.—A letter dated St. Louis, May 27, says "the cholera is prevailing here to a considerable extent. Quite a number of deaths are reported daily. It seems to create no alarm however, as it is expected annually during the hot season.

An old gentleman once said, in speaking of the bad consequences of disparity of fortune, especially on the wife's side, in marriage, that when he married he had only twenty cents, while his wife had twenty-five, and that she was throwing out that extra five cents to him ever afterwards.

The editor of the Cincinnati Commercial says he never drinks brandy, except when all the water is required for purposes of navigation.

WOODWORTH'S AMERICAN MISCELLANY OF ENTERTAINING KNOWLEDGE. By Francis C. Woodworth, author of "Stories about Animals," "Uncle Frank's Home Stories," "Theodore Thinker's Tales," &c., &c., with illustrations. Boston: Phillips, Sampson & Co.

This is a highly interesting collection of miscellaneous sketches and stories, biographical and historical anecdotes, descriptions in Natural History and Mechanical Arts, Moral and Poetical pieces, &c. It is a most attractive book for young people, and of such a character as will tend to improve their minds and elevate their aims for life. The volume contains 288 pages, and is handsomely printed and bound. For sale by E. F. Duren.

THE BOSTON SLAVE RIOT, and Trial of Anthony Burns. Boston, Fetridge & Co.

We are indebted to the publishers for a copy of the above named pamphlet, containing in 88 closely packed pages, a full and accurate account of the late exciting case in Boston, with all its attending circumstances. It is valuable for reading and for preservation. We have also copies from David Dugboe, E. F. Duren, Wm. Bartlett, Jr., and Patch & Lewis, who have the work on sale.

The Bangor people are beginning to prepare for a second visitation of the cholera, which has already appeared in New York, and as Bangor ranks next only to that—at least, in those qualities that bring the cholera—it is very natural that they should stir in the matter.

[State of Maine.

What say you, citizens of Bangor, guilty or not guilty, regarding the "qualities that bring the cholera?"—[Inquirer.

Well, we have no doubt our city needs cleansing—and the same might be said of every other. We have seen in Portland, within six weeks, places having as eminent "cholera qualities" as any we have yet seen in Bangor.

The Calais Advertiser says of the growing grass crop in that section of the State, that it presents an unusually luxurious appearance, and if nothing occurs to retard its growth, hay must be very abundant.

NEW HAMPSHIRE. It is understood that the administration candidates for U. S. Senators, are John S. Wells and Harry Hibbard. Norris in that case, is to be otherwise rewarded we suppose, for his valuable services on the Nebraska bill. John P. Hale is pretty certainly one of the opposition candidates. The general impression is, that no one can be elected, who is in favor of the national policy indicated by the Nebraska measure.

The following strong anti-Nebraska resolves have been introduced into the House. They will test the sense of the House on the Nebraska policy:

Resolved, That the State of New Hampshire reaffirms the principles promulgated by her Legislature in 1850, "that the people are bound by no compact, expressed or implied, to suffer the introduction of slavery into the territory, now free—and that they are unalterably opposed to the erection of any territory, without its prohibition by positive law."

Resolved, That the repeal of the Missouri Compromise was in violation of these principles, was unnecessary, impolitic, a breach of faith to the North, dangerous and wrong.

Resolved, That the course of George W. Morrison and George W. Kittredge, a portion of our delegation in Congress in resisting such repeal, receives the hearty and unmixed approval of the people of New Hampshire.

Resolved, That the course of Harry Hibbard, Moses Norris, Jr., and Jared W. Williams, the other members of our delegation, in voting for such repeal, was in opposition to the wishes of the people of the State, treacherous to freedom, and the great cause of equality and human rights, and merits our decided reprobation.

THE BELLIGERENTS AT SEA. One of these days we may expect to hear of a naval engagement between the Russians and the British, in the Pacific or Indian Ocean. The London Globe says:

"Prowling about the South Seas there are two heavy Russian frigates, the Diana, and a consort. A Russian squadron is at Batavia.—Between California and the mongrel republics of South America are infested with desperadoes, to whom piracy would be pleasant pastime; and if the war lasts, clipper privateers from these quarters, under the Russian flag, will soon be at sea, dogging our gold ships.—But to the Diana. Unquestionably it would be possible for this fine frigate and her consort, well handled by dashing buccaneers, to steal along and successfully destroy our big Australian and New Zealand chief towns—Sydney, Melbourne, Adelaide, Hobart Town, Auckland and Wellington. Most of these places are mere deep-water ports, where even a seventy-four might anchor within a mile of the buildings. All are utterly defenceless against attack from sea. Too few pop-gun batteries possessed by Sydney and another place or two would be swept away by a frigate's first broadside."

THE SLEEPER-WAY. The greatest novelty here is the sluice-way of the Boston, Concord and Montreal Railroad for floating wood from the mountains to near the station. This railroad uses 12,000 cords of wood annually, and half a million feet of timber. These make a large item in the bill of expenses, and the Company shrewdly foresaw that by purchasing about 5000 acres of woodland at the present low rates that they would have wood and timber enough to last them for all time, and thereby save $9000 a year to the Company, at least, and in time, perhaps $20,000 a year, Col. Charles Lane, the Clerk of the road, and also the Wood and Lumber agent, set himself to work and brought up 4,500 acres of woodland at a cost of only $21,000. That makes the wood on the stump cost less than six cents a cord, and with additional cost of cutting and hauling, only $1,25 delivered at the depot ready for sawing. On an average along the line of the road they cannot buy the quality of wood they want for less than $4. They have sleepers enough on the land to relay the whole road, and lumber enough for all repairs for time to come. A thirty years growth on 200 acres will supply the road a year, and with 5000 acres they will have a constant supply.

We began to tell about the sluice-way. Much of the lumber is on high mountains, from which to haul it by oxen costs too much. Col. Lane resorted to the following novel expedient—novel in New Hampshire. He built a sloping sluice way, 2½ miles long extending from the top of the mountain to the valley below, near the railway. It is built of plank 3 inches thick for the bottom, and two for the sides, and about 20 inches deep. Quite a brook of water runs down from the mountains in the spring. Thousands of cords of wood are cut in the winter and taken by sleds to the sluice, and when the time of freshets come, the choppers let in the water and throw in stick by stick and down it goes to the valley below, one stick chasing another with the rapidity of a greyhound after a fox. The box is so narrow that the stick cannot wheel round and another entangle itself beside it. If the water gets low and the stick catches on the bottom, it stops but a moment, for the dammed up waters give it a hoist and away it goes like an arrow. The brook below catches the water that splashes out, and it is dammed up again, and again let in by feeders at the side. In this way they rush down 200 cords of wood a day. Grand is the view of water cascading from the mountains, water leaping from point to point, but what strange emotions must be excited by the sight of a cascade of wood leaping from point to point, rushing with no less impetuosity, yet sure as its mark as an Indian's arrow! In this valley the sides of the sluice are converted into gates that can be turned in angling across, shooting the wood out at any point so that acres can be covered with it. Also there is an raised 20 feet in the air so that 12,000 cords can be scattered at its base at the different gate-ways.

Noyes & Co. have taken the idea and are now building a sluice to float their logs to the water. Their lands are just east of those purchased by the railroad, and some of them join upon them. They have to draw their logs three miles and over, in winter to a pond, and the top of it they pile high with them. As soon as the ice breaks up they drive them through an outlet into the Pemigewasset. Their sluiceway is to be three miles long, three feet wide and two and a-half high, large enough for any logs.

It is estimated that it will cost $8000, but after it is once built can easily be moved to any part of the mountains where water runs. We should like to see the logs rush down, shoot across the pond into the outlet and get an impetus on their way to Lowell! The one on the Montreal road cost only $1200.—Manchester Mirror.

TRUTH STRANGER THAN FICTION. Certainly two of the most singular histories on record are of the grandmothers of Louis Napoleon and the present Sultan of Turkey—Abdul Medjid. These two worthies, the Emperor and the Sultan, are grandsons of two American Creole girls! As this seems incredible, their history will not prove uninteresting. We give it on the authority of the Pittsburg Post:

These two creole girls, grandmothers, were Josephine de Tascher and a Miss S——, who were born and raised in the lovely West India Isle, of Martinique. They were of French origin—their fathers being planters and near neighbors. At the death of her father, Josephine went to France, and was married to M. de Beauharnais, by whom she had one son, Eugene, and a daughter Hortense.

Some time after the death of Beauharnais, Josephine was married to Napoleon Bonaparte and became Empress of France. Her daughter, Hortense, was married to Joseph Bonaparte, ben King of Holland, and the present Emperor of France is her son by marriage. The history of Miss S. is wildly romantic and singular! This lady quitted the Island of Martinique some time before her friend. The vessel carrying her to France, was attacked and taken by Algerine Corsairs, and the crew and passengers made prisoners! But this Corsair ship was, in turn attacked and pillaged by Tunis pirates, and Miss S. was carried by them to Constantinople, and offered for sale as a slave.

Her extraordinary beauty and accomplishments found her a purchaser in the Sultan himself, and she soon become the chief lady of the Seraglio, and Sultana of Turkey. Mahmoud II was her son, and the present sultan, Abdul Medjid, is the son of Mahmoud. What a history! Can the parallel be found in any true record?

The Sultan died in 1811, the Empress Josephine in 1844. Their grandsons now rule over two wide and powerful empires, and are entering as friends and allies, upon one of the most momentous and sanguinary struggles in which Europe has been involved. How little could it be guessed by those two lovely creole girls that their early friendship was to end thus!

It is said that many of the relatives of the Sultana left the Island of Martinique, and settled at Constantinople, where their descendants still reside, and enjoy the favor of the Sultan. Those whom Josephine elevated to power are almost guides of the destiny of France.

They are building a willow dock at La Crosse, Michigan. It is constructed entirely of willow twigs, about twelve feet long, bound in bundles one foot thick, which are so ingeniously arranged and woven together that it is impossible for the sand to work in. Each bundle contains about one hundred small trees, and it will take fifty thousand of these bundles to complete the work. It is said the willows will sprout and grow, rooting firmly together, forming a living superstructure which lasts for ages, without the least tendency to decay.

The Northampton Courier, a leading Free Soil journal in Western Massachusetts, gives assurance that the Free Soilers are ready to relinquish their organization and act with any men or any party, regardless of names, who will heartily oppose the aggressive schemes of the slave power, and faithfully uphold the rights of the North.

Scald, or Sore Heads, and other Eruptions.—A most certain infallible cure is Holloway's Ointment and Pills. Mrs. Jackson of Milk street, Boston, has two children, aged three and five years, both of whom were afflicted from their birth with the most inveterate scald heads, which greatly interfered with the general health. The mother tried every remedy likely to benefit them, (what mother is ill such?) to no purpose. At a friend's recommending Holloway's wonderful healing Pills and Ointment, offering to make Mrs. Jackson a present of $10 worth of the medicines, if they did no benefit the children. This was too tempting to refuse.—Let Pills and Ointment were tried, and $8 worth cured both. The result glad to hear of the Pills and Ointment, and has written him gratefully to Professor Holloway for the return after all.

BOSTON June 10

Rev T W Higginson, of Worcester, was arrested last night in that city, in charge of being engaged in the riot at the Boston Court House when Batchelder was killed. He was brought to this city, and held in $4,000 bail to appear for trial.

A collision occurred yesterday on the Michigan Central Railroad, demolishing two cars, and badly injuring several passengers.

It is said that ex Governor Quitman, of Mississippi is leader of the filibusters who purpose to make a descent on Cuba, notwithstanding the President's proclamation. The organization of a strong force for the attack still goes on. Both men and money are in abundance.

Arrived, ships Clara, Brookman, of Bath, with 230 passengers. Arrived, barq de Sarah B. Hyle, of Portland, from Havana.

WASHINGTON, June 10

A quorum was not present in the House today, and the Giddings matter was therefore laid over and the House went into Committee of the Whole on the Pacific railroad bill.

Mr Chastain, of Georgia, made a speech on Cuban affairs, contending that the time had arrived when the interests of this country demands that Cuba should change owners.

California Items.

From California papers files on which we received from Mr. Charles P Kimball, of the "Noisy Carrier's Publishing Hall" we copy a few additional items of news by the late arrivals

END OF THE WALKER EXPEDITION.—Walker, with a few of his comrades, who have remained by him through thick and thin, surrendered themselves to the United States authorities, and had arrived at San Francisco, where they will be tried for a violation of the Act of 1812

Fourteen officers and 20 privates of the expedition gave themselves up. The following are the officers' names William Walker, President of Republic of Sonora, S. S Richardson, Surgeon General, I Crocker, Major; Charles A Lawrence, 1st Lieutenant and G G S Norval Douglas, 1st Lieutenant, and Q M General, Howard A. Snow Secretary of Navy, John M Jamagan Secretary of War and State, Wm. E. Caldwell Captain, Wm T. Mann, Captain of Navy, P S. Vesder, 1st Lieutenant J C Grawold Captain, C Gilmanck, Wagon Master, S. Mulan, 1st Lieutenant and Adjutant, William Andersen, Sergeant.

The rumors current in the street assert that Brelenck has spent as much as $200,000, and Hammond $140,000 in political manoeuvres for the Senatorship, since the meeting of the Legislature.

In city of Stockton went Whig by 100 majority at the charter election held on the 1st. Mr Bellington was elected Mayor.

On the 3d, Gen John Wise was shot and instantly killed by some of his partners whom he ordered off gambling with upon his ranch.

Fugitive Slave Law Case in Boston.—ANNEXATION.—The committee of Foreign Affairs of the Hungarian Legislature, reported on the 20th April, upon several petitions for annexation to the U. States—that the subject was not within the cognizance of the Legislature under the constitution, but was for the decision of the King and Privy Council. Whatever has Majesty might recommend the House would undoubtedly operate with.

BALTIMORE, June 9. The revenue cutter Morris, with the fugitive Burns on board, arrived at Old Point Comfort, Virginia, yesterday. Burns was put on board the Richmond steamer, *en route* for Alexandria. It is proposed to give the officers a public dinner at Norfolk. Colonel Suttle, the owner of Anthony Burns, reached Alexandria

New Orleans papers state that the express had arrived at Galveston, announcing that the Indians to the number of 400 had rallied under Wild Cat, and commenced a slaughter upon the white inhabitants.

Thirty miles west of Victoria they fell in with a company of 25 soldiers, all of whom, but two, were massacred. They next attacked a party of tourists, traders and citizens, killing 36 of their number—30 Mexicans and 6 Americans. When the express left the fighting was still going on. The express rider had his horse shot under him by a ball from one of the Indians, but he succeeded in saving one of their horses, and escaped.

Important Bargains Offered.
A LOT of land on Rural Dwelling Houses, with large Fruit and Vegetable Gardens, adjoining the city, mostly on the continuation of French St and Broadway, laid out street laid out, 75 feet wide, in the range with Broadway, (as it runs from State Street to the Park.) This street is laid out about 160 rods through my lands, extending over the west end of Mt. Pleasant. This land is much of much larger than the Park, having a commanding view of the city and surrounding country
Also, land for Orcharding and Farming, on the new Stage Road to Oldtown running by Chorsha Mills, situate beyond and near the first considerable elevation, having a view of some part of the city on its western side. This land is considered as good as the farm on which I live, where I have raised over 40 bushels of wheat to the acre, as may be seen on the books of the R. A. Society, and cutting hay and potatoes in the proportion. Some improvement may be formed also of my land for Fruit Trees on my lot near the city by examining my bearing trees and other fruit trees.
My land East of the Mills has a considerable growth of wood on it, and some timber for frames. We can go three times a day, at being one of the central roads running out of Bangor
Liberal terms will be given on it, and the sale of the lots made to suit purchasers.

DR. ORDWAY'S HUMOR DISCOVERY,

—AND—

BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends and those who have tried it, and know its efficacy to put it within the reach of all.

He has now added to it an Herb discovered in California by Dr KELLEY, which makes it the most wonderful remedy for

HUMORS OF ALL KINDS,

LIVER COMPLAINTS, CHRONIC DISEASES, &c.

The virtues of this Herb were first made known to Dr Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.

The effect was miraculous, curing the man in a few days.

The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.

Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them!

Discovery of the California Herb

About the first of March, in the year 1849, Dr Kelley sailed from Boston in the ship "Sweden" for California and arrived at San Francisco in July following. He spent considerable time in travelling the country and mining, but the greater portion of which was spent in the practice of his profession.

While he was practising in the vicinity of Auburn between certain north and south forks of the American river, he frequently noticed the Indians gathering an Herb which they held in high estimation in curing disease, bites of rattlesnakes, and mad animals.

While doctoring a miner for that terrible disease, the California Erysipelas and Liver Complaint, an Indian whose life he had previously saved who came at great expense (with some miners) came with an Herb which he called "*Dream weed*," (which means well cure,) he told him to give the *mixture*, (tea.) The effect he found to be new and wonderful curing the man in a few days.

He afterwards used the herb in his practice, and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Sores, Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints, and a great *internal as and Purifier of the Blood*.

The above is an substance the discovery and medicinal properties of this useful Herb, as related by Dr Kelley, on his return.

Upon trial its virtues have been found to far exceed the reputation as the most valuable Medical Herb discovered.

Here's Mother's Tea as from the Granite State

The Ordway Dodd's Sarsaparilla cures wonderfully in most cases. We have received a certificate of your Sarsaparilla only, and from the effects produced we believe it to be an invaluable medicine.

I wish to tell you particular what it has done to me little boy (which is now six years of age) and has been a feeble child from his infancy, and accounted the sig of it with inward humor, and long *Inoculation*, and occasionally, at times, great *Rheumatism* and *Emigration of the spine*. Obstinate ago last summer and fall he was very afflicted with Cold Feet, so much so that *blood* so much, that it caused screaming to witness this disease any of his little sufferer while trying to heat the coldest food. I thought what course to pursue with it but had heard of the *Blood Purifier*, and commenced giving it to him about the first of June after I am happy to say that by taking one bottle his *mouth was free from cankers*, and his feet warm provided every way and after taking three bottles it succeeded, in the disease that was so deeply rooted in his system, and has remained so until he was seized with the influenza in April, which left him with a severe cough but was stopped in not long time in a few weeks. But he took cold and his cough came on again worse than before he was troubled with Indigestion and has of appetite and he was so emaciated that my friends were afraid he was going into a decline.

As soon as cough was relieved, we commenced giving him the *Blood Purifier* again to move in a healthy and in a short time he began to gain fast. And by the blessings of Almighty God, he is now well as ever he was two months past the picture of health.

I can confidently recommend the Blood Purifier to all who are afflicted with humors in any form.

We have also made use of the Purifier as a restorative after being reduced low by fever and believe it to be the very best of Medicines in all such cases for purifying the secretions and removing all the old matter in the system and restoring health and vigor.

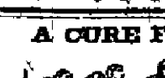
A CURE FOR ALL!



HOLLOWAY'S OINTMENT!!

Citizens of the Union

You have done me the honour, as with the whole from one end of the Union to the other to state the character of my Ointment with your approbation. It is barely two years since I made it known among you, and already it has obtained more celebrity than any other Medicine in so short a period. THOMAS HOLLOWAY.

88 Corner of Ann and Nassau Sts, New York.

ASTONISHING CURE OF SORE LEGS, AFTER NINE YEARS STANDING!

Copy of a Letter from Mr. W. J. Langley of Huntsville, Indian county, North Carolina U. S., dated November 1st, 1853

READ HIS OWN WORDS

To Professor Holloway

Sir—It is from my wish to let some notoriety, neither is this I the motive for the mere sake of writing, but to many all your Ointment and Pills are the most valuable medicines that I have ever used, and which I am well assured by all who know my state to be entirely beyond the reach of medicine. For nine years I was all over with one of the most painful and troublesome sore legs that ever fell to the lot of man, and I tell you truly every medicine that I heard of, I required no pecuniary aid, but a friend brought me a couple of large pots of your Ointment, which caused the sores to run freely at first, and I entirely regained my health to my considerable surprise and delight, and to the astonishment of my friends.

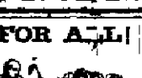
AYER'S



FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

Human has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand and an extensive trial of its virtues has conclusively shown with the success it accomplishes the purpose designed. It is easy to make a physical pill but difficult to make the best of all pills—one which should meet all the objections, but all the advantages of every other. This has been attempted heretofore and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every pill active medicine is acrimonious and irritating to the bowels. This is not. Many of them produce a much griping pain and revulsion in the system, and most of them unbalance the good to be derived from them. These pills produce no griping or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable no harm can arise from their use in any quantity, but it is better that none should be taken injudiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them we may mention Costiveness, Indigestion, Dysentery, Dropsy, Loss of Appetite, Listlessness, Inactivity of the Bowels, Biliary Fever and Ague, Bilious Colic and Jaundice, for, in truth, all those cases of derangement in the digestive organs which require a discharge of the morbid matter by a gentle purge to restore the healthy action to the whole system. Costiveness is a cause of disease with many, and should be avoided by all who desire to be healthy. Dyspepsia, Liver Complaint, Dysentery, Dropsy, Colic, with numbers of the most painful diseases, are the result of Costiveness. Let the Liver be properly stimulated, and the bowels will be free. Cleansing the system from impurities, by stimulating the digestive organs to a healthy action, is the foundation of health. Let the bowels be free, and the system will be healthy. Let the digestive organs be in order, and the system will be healthy. Let the liver be stimulated, and the bowels will be free
